Theoretical Perspectives

MCEO teachings presently exist on Earth as a growing body of detailed information pertaining to the spirituality and science of creation and the history and evolution of humanity. MCEO teachings offer unique perspectives, techniques and technologies of mind and spirit that have proven useful to many people in the exploration and expansion of personal consciousness. Information contained within MCEO teachings represents a cohesive paradigm of ideas, beliefs and perspectives reportedly translated from ancient texts, which together comprise an affirmative and inspirational "point of view" or "world view" regarding the tangible realities of spirituality, the mechanics of creation, the history of our universe and the potentialities of the human condition. Like many popular "New Age" and "Traditional" paradigms of spiritual, scientific and historical beliefs, many points of view presented within MCEO teachings extend beyond the framework of presently recognized spiritual/religious, scientific and historical "fact" that can be verified through common contemporary scientific procedures. *Thus, like many other popular belief paradigms, including ALL known "New Age" and "Traditional" spiritual/religious doctrines and many fields of contemporary scientific study, the perspectives presented within the MCEO teachings must, too, be presently categorized as theoretical in nature.*

The *verifiable actuality*, and thus the potential validity, of the presently theoretical spiritual, scientific and historical perspectives of MCEO teachings pertaining to the "**Ancient Science of the Shields**" (scalar-standing-wave templates of matter and consciousness), "**Merkaba Mechanics**" (interdimensional electromagnetic vortex mechanics), "**DNA Template Activations**" (frequency accretion within the scalar template behind manifest chemical DNA), "**Interdimensional Structure**," "**15-Dimensional Anatomy**," "**Bio-Spiritual Healing**" (support of biological healing and well being through holistic spiritual practice) and **Humanity's Evolutionary Journey**, perspectives which are featured within the **MCEO Kathara Bio-Spiritual Healing Program**, **MCEO Maharata "Dance For" Programs** and related published works of the MCEO, cannot at this time be "proved or disproved." Therefore, the MCEO Paradigm and its related teachings, techniques and technologies are offered to the public as a unique and inspirational view point, solely for the purpose of public investigation, consideration and theoretical exploration.

Though the presently theoretical categorization of MCEO teachings within the public sector is recognized, it should also be recognized that members of the Azurite Press, Trustees and the AP Regents Council, as well as authorized MCEO translators/authors and teachers and many individuals within the international community, have personally chosen to accept the validity of MCEO teachings as representing more than a theoretical perspective, instead acknowledging the MCEO Paradigm as a factual reality interpretation, and practical worldview, through which progressive expansion of personal consciousness and coherent spiritual awakening are fostered. Such decision as to the factual or theoretical categorization of the MCEO Paradigm, and the responsibilities inherent to this decision, are deeply private spiritual issues, and thus must be assigned to the faculties of personal discretion.

MCEO Meditations for Spiritual Exploration, Medical and Psychiatric Considerations

As the MCEO Paradigm is built upon presently theoretical spiritual, scientific and historical perspectives, any and all techniques and technologies offered through the MCEO Paradigm must also be considered as presently theoretical in nature, and thus any and all techniques and technologies presented within MCEO teachings are **not intended to diagnose, treat or cure any disease or illness, nor are they intended as substitution for professional medical or psychiatric advisory or treatment.** Techniques and technologies provided within MCEO teachings are offered to the public solely as "**Meditations for Spiritual Exploration**," with the intention of assisting to serve the further evolution of human consciousness through providing exposure to an expanded range of perspectives and potentialities. **It is strongly recommended that individuals having a history of medical or psychiatric difficulties, or whom are presently under the care of medical or psychiatric professionals, seek professional advisory before using any MCEO Meditations for Spiritual Exploration techniques or technologies.**

Since introduction of *MCEO Meditations for Spiritual Exploration* techniques and technologies in 1999 many people have claimed to receive beneficial affects and effects in the development and expansion of personal consciousness and spiritual awakening through use of MCEO techniques and technologies. There have also been a lesser number of reports of individuals claiming to receive no affect, effect or benefit at all, but there have been **no reports of individuals claiming adverse medical, psychiatric or psychological affects or effects** in conjunction with use of MCEO techniques and technologies. As a reflection of commitment to responsibility in presentation, MCEO techniques and technologies are not presented for exploration in the public domain until they are first and/or simultaneously explored, utilized or practiced by authorized MCEO translators/authors/ teachers and members of the Azurite Press Board of Directors. Though validation of factual actuality pertaining to affects, effects or benefits of practicing MCEO Meditations for Spiritual Exploration techniques and technologies must, like the techniques and technologies themselves, for the present time remain within the realm of theoretical exploration, it can be reported that since 1999, findings pertaining to the practicality of utilizing MCEO techniques and technologies have consistently revealed that affects and effects of such practices are **quite individualized, though predominantly positive**, in nature. Therefore, however, **no claims, promises or guarantees as to the affects, effects or benefits an individual might expect to encounter through use of MCEO techniques and technologies can be offered at this time.** Utilization of MCEO Meditations for Spiritual Exploration techniques and technologies presently remains within the category of **experimental self-exploration**, through which absolute conclusions regarding generalities of mass affect, effect, benefit or detriment cannot yet be drawn. **An individual's involvement with MCEO teachings, techniques and technologies represents a choice of personal decision and discretion, and thus responsibility pertaining to affect and effect of practice that are inherent to this choice must also remain with the individual.**

Claim of Authenticity

In offering MCEO teachings for public exploration, **neither the translators/authors, publishers, promoters or related individuals and organizations make any claims whatsoever as to the factuality of ideas or perspectives contained within the MCEO Paradigm.** Though the *MCEO teaching texts themselves* do on occasion claim that certain ideas and perspectives are of a factual nature, such claims represent points of view intrinsically contained within the ancient texts from which contemporary translations are drawn. The authorized translators/authors of contemporary MCEO teaching texts hold a binding commitment to ensure the clearest and most accurate translation of MCEO texts as possible under current evolutionary circumstances; a *commitment to clarity and accuracy of translation* that must include the allowance of contemporary translation of any *claims of factuality as they are contained within the MCEO texts of antiquity.* **Information represented as factual knowledge**

within the MCEO texts of antiquity, and their contemporary translations, is understood to represent *“potential or possible factuality, expressed as factuality within the ancient texts, but which presently resides within the domain of theory”* within the context of contemporary publication.

The contemporary translators/authors of MCEO teachings *claim only* that the MCEO text translations contained within presently published works bearing their authorship represent an “as-accurate-as-possible” translation of MCEO text records believed to have been created in ancient times, which the contemporary translators/authors have had opportunity to review through *authentic personal experiences*. Translators/authors thus make claims only as to the *authenticity of their personal experiences* through which review of ancient MCEO text records occurred and as to the factuality that translation of the reviewed ancient MCEO texts into contemporary English language has been rendered by them as clearly and accurately as possible.

As the original MCEO texts of antiquity are not presently in the direct possession of authorized contemporary translators/authors, and thus contemporary translators/authors cannot at this time publicly display these artifacts in order to validate the reality of their continued existence and verify their inherent content, those who explore contemporary MCEO texts translations must understand that such works are presented as theoretical perspectives and possibilities, the validity of which one may choose to believe, or disbelieve, upon the merit of one’s personal discretion. *If ideas, concepts or perspectives contained within the MCEO texts, their contemporary translations or related teaching materials bear any resemblance to ideas, concepts or perspectives contained within any other presently known spiritual/religious, scientific or historical paradigms or teaching systems, such resemblance is purely coincidental.* However, the event of such coincidence arising may potentially suggest that both the MCEO Paradigm and paradigms to which it might bear resemblance **may have arisen from a common source in antiquity** that has yet to be discovered or scientifically verified, but which would upon discovery lend credence and clarity to such coincidence.

Terms, Conditions, Agreements and Implied Consent

As contemporary MCEO text translators/authors can make no claims or promises as to the factuality of ideas and perspectives presented within MCEO teachings, they likewise **cannot offer any claims, promises or guarantees as to the affects or effects that may or may not arise through personal use of MCEO teachings or Meditations for Spiritual Exploration techniques and technologies.** The responsibility for decision to engage involvement with MCEO teachings, techniques or technologies rests with each individual, and thus the responsibility for any affects or effects that may or may not occur in conjunction with use of MCEO teachings, techniques and technologies must also rest with the individual. The *Meditations for Spiritual Exploration* techniques and technologies provided within MCEO teachings represent translations from the ancient MCEO texts, and are provided to the public as an **option for personal spiritual exploration, investigation and experimentation, to be utilized at the personal discretion of the reader or workshop attendee.**

As stated in numerous public forums and workshops since 1999, *in choosing to utilize MCEO teachings, techniques or technologies* it is understood that *in so doing* the individual **accepts full responsibility for any and all conditions** that may or may not occur in conjunction with such practice. It is further recognized that the individual, *through the act of utilizing* MCEO teachings, techniques or technologies, *thereby through this act agrees* to release Azurite Press, Trustees, the AP Regents Council, authorized Kathara Bio-Spiritual Healing Program teachers and facilitators (pertaining only to MCEO-sanctioned Kathara “no-touch” procedures), authorized MCEO translators/authors, teachers, promoters and any individuals and organizations thereto related, from any and all claims of liability or damages perceived or assumed to occur in conjunction with involvement in MCEO teachings, techniques or technologies. This statement of Terms and Conditions represents a written **Notice of Implied Agreement and Consent to Liability Release** in regard to involvement

with MCEO teachings, techniques and technologies. This Notice of Implied Agreement and Consent of Liability Release represents a *reiteration in specific written format* of previously provided notice as to the *necessity of taking personal responsibility for any and all consequences arising from chosen involvement with the MCEO Paradigm*; notice which has been frequently provided verbally in public forum since 1999. It is recognized that the *Implied Agreement and Consent to Terms and Conditions of Liability Release* stated here within is accepted and enacted as such *upon the act of chosen involvement with and/or practice of MCEO teachings, techniques and technologies*. If one is uncomfortable or in disagreement with this stated *Notice of Implied Agreement and Consent to Terms and Conditions of Liability Release*, it is suggested and recommended that one choose at this time non-involvement with MCEO teachings, techniques and technologies, until a future time wherein such concerns have been assuaged.

A Commitment to Quality and the MCEO Course-book Manuals

The authorized MCEO translators/authors, members of the MCEO, Azurite Press, Trustees, Regents Council, teachers and promoters of the MCEO Paradigm extend their greatest efforts in making MCEO teachings available for public exploration in **the most responsible and respectful manner possible**, whilst striving to maintain the **highest standards of integrity in MCEO text translation and teaching**. Intrinsic to such responsibility in presentation, authorized MCEO translators/authors, members of Azurite Press, Trustees, Regents Council and authorized teachers and facilitators of MCEO programs are all individuals who personally believe in the factuality of the MCEO Paradigm and who actively participate, for personal spiritual reasons, in MCEO programs, including personal utilization of MCEO techniques and technologies. These individuals all share a **common commitment to achieving and maintaining integrity, quality and responsibility in public presentation of MCEO teachings**; this shared commitment arises from a commonly shared, individually held, reverence, respect, appreciation for, and belief in the validity of, the MCEO Paradigm, its inherent teachings of personal spiritual self-discovery and the limitless potentialities of human consciousness that this paradigm suggests.

On behalf of this commitment to quality, may it be understood that **MCEO Course-book Manuals**, as featured within the MCEO *Kathara Bio-spiritual Healing Program*, MCEO *Maharata "Dance For" Programs*, MCEO *Masters Templar Stewardship Initiative Program* and other MCEO teaching programs, **do not represent completed books**, but rather exist as **companion text briefings** that are created in conjunction with **specific corresponding live workshop presentations** which are preserved via **audio/ video recordings** that are made available on the *Azurite Press Products List* as specific Program Sets. The Course-book Manuals that accompany some of these audio-video workshop programs **contain only the charts, graphs and most pertinent information pertaining to their corresponding audio-video program**, and **do not contain the many pages of dialogue and detailed explanation** that is incorporated verbally within the audio-video program. Thus MCEO Course-book manuals are not intended to be used alone, but are rather intended for use as an **additional educational aid in conjunction with their corresponding audio-video workshop program**.

As new MCEO workshop materials are often released and translated during live workshop presentations, the corresponding Course-book Manuals and their inherent graphs and charts often reflect the immediacy of the new information provided in that they are initially rendered "**in-the-rough**," often with portions of text in hand-written form, not yet "perfected" for book publication with appropriate dialogue text detail, typesetting, computer graphics, pagination and indexing. As each new workshop since 1999 has introduced the next level of new, live MCEO data translations, there has been insufficient time to "move backward" and perfect the quality of production pertaining to MCEO Course-Book Manual texts from previous workshops. The information and new MCEO teachings contained within each workshop program always reflect the standards of integrity and quality inherent to the MCEO Paradigm, but often timely public release of new materials is achieved at the expense of quality in product production. **The Azurite Press staff apologizes for any inconvenience that such "data-in-the-rough" may cause; however, if workshop programs were withheld from Product List release until their audio/video recordings and**

corresponding Course-book Manuals were “perfected” in terms of product production, it would be several years before these materials were released for public review. As new MCEO teachings are often time-sensitive in regard to the unfolding of planetary events, especially since 2000, it has been of greater priority during this time to expedite availability of the MCEO teachings contained within the products, than it has been to demonstrate the standards of excellence in quality product production that remains a goal of Azurite Press.

For the time being, MCEO audio-video-Course-book Programs are in a **state of continued evolution**, as the small staff at Azurite Press, with the assistance of numerous individuals who volunteer their time and talents, endeavor to compile dialogue transcripts and perfect typesetting, computer graphics and format organization of previous MCEO workshop presentations in effort to fulfill the goal of creating “perfected” book publications that contain, and “do justice to,” the vast body of quality teachings that have been presented during the 1999-2003 MCEO workshops. The commitment to achieving excellence in quality of production, as well as quality of information, that is held by members of Azurite Press staff arises from the personal desires of staff members to “honor the spirit of the teachings” which they have found personally valuable, as well as from a desire to provide the best possible quality of product and service in spiritual respect to the public. Until the goal of achieving “perfected” product production quality is actualized, Azurite Press staff hopes that the public will share in the recognition that it is the **quality, and inherent substance, of MCEO information, more so than the “package that it comes in,”** which demonstrates the value of Azurite Press MCEO educational products.

The “Seat of Kha-Steil-A”, the “DhA Force”, “Air Benders” and the Dan Tein

The *Seat of Kha-Steil-A*, also known as the “DhA Point” or simply as the “**DhA**”, is an organic energy center within human anatomy that serves as a “storehouse and generator station” for the “**DhA**” **Elemental Life Force energies** (D-2 telluric “dha”/D-1 etheric “A”), which serve as the “innate intelligence and consciousness” within all atomic and sub-atomic form and structure. Within the human body, the “**DhA Force**” represents the elemental “atomic/molecular/cellular consciousness” often referred to as the “**Body Consciousness**” which governs all autonomic processes of the physical body form.

In original “DhA-Ya-fied” Angelic Human silica-based anatomy, the “DhA Point” was fully active and played a key role in the processes of biological *Hydrolase Conversion* and *Solar Symbiosis* by and through which the *Breatharian* Angelic Human form functioned. The DhA Point served as an internal “energy station” through which the eternal “**DhA-Ya-TEi**” Elemental Life Force currents and consciousness were synthesized, amplified and stored, and through which the DhA-Ya-TEi Life Force currents could be consciously utilized and directed within the co-creative processes of Krystic Elemental Command. The DhA Point, and the Life Force energies inherent to this center, were directly associated with the “branch” of *Krystic Mashayahanic Elemental Command* known as the “**Yha-Seph-ah Air Command**”, or the “**Air Benders**”. The Angelic Human “Air Benders” of pre-ancient times were considered the “**headmasters of the Elemental Command Ground-Force**”, (even though the 4 branches of *Mashayahanic Elemental Command* are all equal and possess equal powers), because of their direct association and co-creative relationship with the DhA Force, through which all of the other Elemental Life Force energies must flow to achieve expression in physical-atomic (etheric-telluric) form. The DhA Point of the pre-ancient Angelic Human Earth Stewards was highly developed, as were their abilities to “command” (directly and consciously co-create with) all five of the Elemental Forces (Earth/Crystal, Water, Fire, Ether and AIR) through their mastery of skill in applications of the “Air Command”. Only the “*Adepts of Air Command*” could fully direct the Elemental Life Force energies of the 4 other forces *in regard to physical-atomic expression*, due to their skills of co-creatively managing the DhA-Ya-TEi Force through their embodied DhA Point energy center.

In contemporary “Morti-fied” (mortal) Earth Human carbon-based anatomy, the pre-ancient “DhA Point” still exists, but it remains primarily dormant, with only a small portion of its original energies and powers still manifest in active operation. In the contemporary human, the portion of the DhA Point that remains active is often referred to as the “**Dan Tein**” energy center, which is viewed as the “center of Life Force Energies” within many of the ancient “Mystery Schools”. In its current state, the Dan Tein portion of the DhA Point serves as the “seat” through which the smaller currents of the “**Chi**” **Elemental Life Force** direct the autonomic functions of the physical body and consciousness, and with specialized training, the elemental “Chi Force” can be consciously harnessed, amplified and directed through the physical body for “lesser feats of more localized Elemental Command” (such as demonstrated in ancient arts like T’ai Chi, and various other “Martial Arts” applications). The Dan Tein center alone cannot fully run nor synthesize the full-spectrum DhA-Ya-TEi Elemental Life Force once utilized by the pre-ancient DhA-Ya-fied Angelic Human anatomy, but the potentials of the contemporary Dan Tein power-center can be progressively expanded through the **Sacred “DhA-Ya-fication” Process**, by which the currently “Morti-fied” Human biology and consciousness can progressively achieve reverse-mutation to reclaim the dormant potentials of the pre-ancient Angelic Human “DhA-Ya-TEi” Air Benders.

All Techniques featured within this 5/2011 MCEO Sliders-10 workshop, and within the MCEO workshops to come, share the common purpose of progressively healing the human biology and consciousness to reclaim its pre-ancient Angelic Human heritage through the Sacred "*DhA-Ya-fication*" Process. All Techniques featured in past MCEO Workshops (1999-2011) have shared the common purpose of methodically and progressively healing and preparing the human body/consciousness/multi-dimensional anatomy to engage this Sacred DhA-Ya-fication Process. Techniques introduced in this *Sliders-10 "Adept Mental Body Training"* workshop serve the purpose of engaging Level-1 of the physical-atomic DhA-Ya-fication Process. This process begins with bringing the pre-ancient **Seat of Kha-Steil-A/ "DhA Point"** out of dormancy, and re-integrating its potentialities with those held by the contemporary *Dan Tein* energy center, following which the potentials of the Dan Tein and "Chi Force" can be progressively expanded to access, synthesize, and "flow" the powerful DhA-Ya-TEi Eternal Elemental Life Force.

The **Dan Tein** energy center of contemporary human biology is *primarily* stationed in a position *within* the physical and etheric body that is **approximately 1" below the physical navel** (this position can vary from person to person, and the position of the Dan Tein center can "move or be moved" during certain "energy command" applications). The center-point of the dormant **Seat of Kha-Steil-A/ "DhA Point"** is stationed slightly below the center-point of the Dan Tein, and above the embodied "Density Flame Point" known as the "E-Umbi" (between top of hip bones). In this Sliders-10 workshop, we will be using both the *DhA Point* and the *Dan Tein* center, along with numerous other "embodied centers of multi-dimensional process" that are directly connected to these two, and to the beautifully intricate organic structures of Eternal-Life DhA-Ya-TEi bio-spiritual anatomy.

Technique-1: *Virtue-13 and Awakening the Seat of Kha-Steil-A/"DhA Point"*

Purpose: To bring the *Seat of Kha-Steil-A/"DhA Point"* energy center out of dormancy in preparation for Level-1 DhA-Ya-fication of the physical-atomic telluric-etheric body. Can also be used following Level-1 DhA-Ya-fication to amplify, strengthen and balance the DhA-Ya-TEi Force within the Kha-Steil-A/DhA Point and physical-atomic body.

Preliminary Preparation: Luminary Body Activation (Sliders-9 10/2010 & FOL 1/2011), Chakra Induction of the 13 Virtue Codes and related biofield activations (April 2011 workshop).

Immediate Preparation: While breathing normally, visually focus upon **Virtue Code-13**, call to mind its "Quality" ("**Enlightenment**"), "4-Components" ("**Grace, Eloquence, Patience, Humility**") and its "name" ("Yhu-MEI-ZUN"/"**Yoo-mE-ZUn**"), rest backs of palms on your knees and place both hands in the "**Ether Mudra**" position (ring and middle fingers together touching thumb), and for a few moments quietly speak its "Tone" ("**ah**") on each exhale breath.

Steps:

1. Continue visual focus upon Code-13, stop "toning" and take a slow deep **inhale** breath, using the inhale to draw the image of the code into your Pineal Gland, for "Optical Pineal Induction"; **hold** breath at "top of the inhale" for a moment and sense the Code-13 image condensing into a **minute "Code Spark"** within the center of your **Pineal**.
2. **Exhale** slowly, using the exhale breath to **enlarge and expand** the "**Root Code Symbol**" of the Code-13 image outward around your head, as if an "invisible sphere holding the Root Code Symbol inside" expands around your head like a "**bubble sphere helmet**", about "twice the size of a basket ball". Notice and allow that the Root symbol will "pick its own left/right/front/back directional alignment" once expanded around your head.
3. **Inhale**, using the inhale breath to once again **contract** the Root Code and its "bubble sphere helmet" back into a tiny "code spark" within the **Pineal**.
4. **Exhale**, using the exhale breath to once again **expand** the Root Code and bubble sphere helmet out around your head; **hold** a moment at the "bottom of the exhale" and notice that the **Root Code suddenly "splits into two replicate images"**, with one Root Code image **spinning** around your head clockwise (left to right) and the other spinning Counter-clockwise (right to left).
5. Return to **normal breathing** for a moment, observing that the "spinning motion" of the two Root Code replicates **picks up speed and momentum with each exhale breath**.
6. Next, **inhale a half-breath**, using the half-breath inhale to **contract** the bubble-sphere helmet with counter-spinning Root Code images back into a "Code Spark" in the **Pineal**, then continue to full inhale, using the **second-half of the inhale** to draw the "Code Spark" **upward** from the **Pineal** and into **Crown Chakra-7** at the "outside top of your head".
7. **Exhale** at Crown Chakra-7, using the exhale breath to again **expand** the "Root Code sphere" helmet outward at **Crown Chakra-7**, this time with the "top half" of its sphere extending above your head, and the "bottom half" of the sphere extending downward partially through your head.

8. **Inhale a "half-breath"** at Crown Chakra-7, using the inhale to again **contract** the "Root Code sphere" into a "Code Spark" at the top of your head, then continue the inhale, using the **second-half of the inhale** to draw the "Code Spark" **downward** from the top of your head and into the central Seed Seal of **Throat Chakra-5**.
9. **Exhale** at Throat Chakra-5, using the exhale breath to again **expand** the "Root Code sphere" outward at **Throat Chakra-5**.
10. **Inhale a "half-breath"** at Throat Chakra-5, using the inhale to again **contract** the "Root Code sphere" into a "Code Spark" at the center of Throat Chakra-5, then continue the inhale, using the **second-half of the inhale** to draw the "Code Spark" **downward** from Throat Chakra-5 and into the central Seed Seal of **Heart Chakra-4**.
11. **Exhale** at Heart Chakra-4, using the exhale breath to again **expand** the "Root Code sphere" outward at **Heart Chakra-4**. **Hold** a moment at the bottom of the exhale and notice that the a **huge replica of the "Root Code Sphere"** suddenly "**pops**" out around your entire body, filling your D-4 Astral auric level and expanding further to fill your entire "**Ephemeral Vehicle**" sphere (**at least 20-feet in diameter**), while the small Root Code sphere remains expanded at Heart Chakra-4.
12. **Inhale a "half-breath"** at Heart Chakra-4, using the inhale to again **contract** the **small** "Root Code sphere" into a "Code Spark" at the center of Heart Chakra-4, then continue the inhale, using the **second-half of the inhale** to draw the "Code Spark" **downward** from Heart Chakra-4 and into the central Seed Seal of **Solar Plexus Chakra-3**. The huge "auric field Root Code sphere replica" remains expanded in your Ephemeral Vehicle, its center point remaining anchored at Heart Chakra-4.
13. **Exhale** at Solar Plexus Chakra-3, using the exhale breath to again **expand** the small "Root Code sphere" outward at **Solar Plexus Chakra-3**.
14. **Inhale a "half-breath"** at Solar Plexus Chakra-3, using the inhale to again **contract** the smaller "Root Code sphere" into a "Code Spark" at the center of Solar Plexus Chakra-3, then continue the inhale, using the **second-half of the inhale** to draw the "Code Spark" **downward** from Solar Plexus Chakra-3 and into the central Seed Seal of **Sacral Chakra-2**.
15. **Exhale** at Sacral Chakra-2, using the exhale breath to again **expand** the small "Root Code sphere" outward at **Sacral Chakra-2**.
16. **Inhale a "half-breath"** at Sacral Chakra-2, using the inhale to again **contract** the small "Root Code sphere" into a "Code Spark" at the center of Sacral Chakra-2, then continue the inhale, using the **second-half of the inhale** to draw the "Code Spark" **downward** from Sacral Chakra-2 and into the central Seed Seal of **Base Chakra-1** (in CVC in front of tailbone).

17. **Exhale** at Base Chakra-1, using the exhale breath to again **expand** the small "Root Code sphere" outward at **Base Chakra-1**.
18. **Inhale a "half-breath"** at Base Chakra-1, using the inhale to again **contract** the small "Root Code sphere" into a "Code Spark" at the center of Base Chakra-1, then continue the inhale, using the **second-half of the inhale** to draw the "Code Spark" **upward** from Base Chakra-1 and into the center of the **AzurA Point** (at base of Thymus gland).
19. **Exhale** at AzurA, using the exhale breath to again **expand** the small "Root Code sphere" outward at the **AzurA**.
20. **Inhale a "half-breath"** at AzurA, using the inhale to again **contract** the small "Root Code sphere" into a "Code Spark" at the center of AzurA, then continue the inhale, using the **second-half of the inhale** to draw the "Code Spark" **downward** from the AzurA and into the center of the **Karanadis Seal** (behind bottom of breast bone in CVC).
21. **Exhale** at Karanadis Seal, using the exhale breath to again **expand** the small "Root Code sphere" outward at the **Karanadis Seal**.
22. **Inhale a "half-breath"** at the Karanadis Seal, using the inhale to again **contract** the small "Root Code sphere" into a "Code Spark" at the center of the Karanadis Seal, then continue the inhale, using the **second-half of the inhale** to draw the "Code Spark" **downward** from Karanadis Seal and into the center of the **Ra Center** (about 1" above navel in CVC)
23. **Exhale a "half-breath"** at Ra Center, **but do not expand the "Code Spark" outward**; then use the **second-half of the exhale** to push the "Code Spark" **downward** into the **EUmbi Point** (below navel centered between tops of hip bones in CVC).
24. **Hold** a moment at bottom of the exhale, then **inhale strongly** at the EUmbi Point while **physically contracting your lower abdominal muscles**, using the inhale and contraction to **compress** the "Code Spark" within the EUmbi into a minute, shiny **Silver Speck**. **Hold breath and muscle contraction** at the top of inhale for a moment.
25. **Exhale strongly**, using the exhale breath to **expand** the minute, shiny **Silver Speck** in the EUmbi outward, forming a **"Silver Mirror-ball Sphere"** (about twice the size of a basket ball) at the **EUmbi**.
26. **Breathe normally** for a moment and **become aware** that at each of the **"9 stations"** at which you **"expanded a Root Code sphere outward"** (Pineal, CKs-7,5,4,3,2,1, AzurA, Karanadis Seal and Ra Center), an **energetic "replicate"** of the *expanded Root Code sphere* **remained** expanded outward from its "station", even though you "contracted and relocated" the original Root Code sphere. You presently have a **"collection of 9 Root Code sphere replicas"** expanded and active (spinning) at their corresponding "stations".

27. Next, **inhale slowly and deeply**, using the inhale breath to “**simultaneously draw together, collect and contract**” the “**9 Root Code sphere replicas**”, drawing them from their current stations and contracting them into the **Silver Mirror-ball Sphere at the EUmbi.** Hold at the top of the inhale, allowing a moment for the “9 Root Code sphere replicas” to draw together and “load” into the EUmbi *Silver Mirror-ball Sphere*.
28. Now, **exhale slowly and deeply**, using the exhale breath to “**push**” the still-expanded and “loaded” **Silver Mirror-ball Sphere upward** from its position at the EUmbi, and into the **AzurA.** Hold at the bottom of the exhale for a moment and “**sense the feeling**” of the still-expanded Silver Mirror-ball Sphere as it extends around you from the AzurA.
29. **Inhale** into the center of the AzurA, where the *center-point* of the *Silver Mirror-ball Sphere* attaches to the center of the AzurA, and **hold** at the top of the inhale.
30. **Exhale slowly and deeply**, using the exhale breath to **gently “push”** the Silver Mirror-ball Sphere, (pushing from its center-point) **downward**, from the AzurA and into the **Karanadis Seal.** Hold at the bottom of the exhale and “**sense the feeling**” of the still-expanded Silver Mirror-ball Sphere as it still extends around you, but now from its “*lower position*” centered at the Karanadis Seal.
31. **Inhale** into the center-point of the Silver Mirror-ball Sphere at the Karanadis Seal, then **slowly exhale**, using the exhale breath to gently “**push**” the Silver Mirror-ball Sphere **downward** from the Karanadis Seal and into the “*Mortal Life Force Chi-Center*” **DAN TEIN (about 1” down from the navel).** Hold at the bottom of the exhale and “**sense the feeling**” of the still-expanded Silver Mirror-ball Sphere as it still extends around you, but now from the “*even lower position*” centered at the **Dan Tein.**
32. **Breath normally** for a moment, focusing upon the **Dan Tein** and the *Silver Mirror-ball Sphere*; sense a feeling of “**growing warmth/heat, coolness, or tingling**” within the **core** of the **Dan Tein** center, as the elemental “**Chi**” **Life Force** energies stored within the Dan Tein begin to **more fully awaken** as they receive the “**encryption signals**” from the “loaded and encoded” Silver Mirror-ball Sphere.
33. Next, **inhale gently** into the **center-point** of the Silver Mirror-ball Sphere, where it connects into the center of the Dan Tein, **hold** for a moment at the top of the inhale, then **exhale slowly and gently** into this center-point, using the exhale breath to gently “**push**” the Silver Mirror-ball Sphere yet-again **downward** and into the center-point of the pre-ancient, dormant “**Seat of Kha-Steil-A**”/“**DhA Point**” (in CVC, below the Dan Tein, at *approximately the “half-way-point” between the Dan Tein and the Eumbi point*).
34. **Hold** for a moment at the bottom of the exhale, with your **attention focused upon the DhA Point** and the Silver Mirror-ball Sphere, then **return to normal breathing.** Sense the “**feeling**” of the still-expanded Silver Mirror-ball Sphere as it still extends around you, but now from its “*low-down position*” centered at the “**DhA Point**”/ *Seat of Kha-Steil-A*. Sense a feeling of “**growing warmth/heat, coolness, or tingling**” within the **core** of the **DhA Point**, as the elemental “**Chi**” **Life Force** energies from the Dan Tein above, combined with the Silver Mirror-ball encryption, **begin to awaken** the long-dormant, powerful “**DhA-TEi Elemental Life Force**” energies within core of the **DhA Point.**

35. Continue breathing normally with attention focused upon the **sensations of the DhA Point**, until you begin to **sense a feeling of SLOW BUT STEADY PULSING** (akin to a “heartbeat”) within the **DhA Point** and **corresponding abdominal region of the physical body**. The “**Pulsing Sensation**” may begin *instantly* upon centering of the Silver Mirror-ball at the DhA Point, or it *may take up to about 1-minute* to initiate pulse, but no longer. **Breathe normally** with attention on the DhA Point sensations for the **full 1-minute**, to ensure “pulsing has begun and reached a steady base-speed”.

The First 12 Breaths of DhA

36. Just before completing the full 1-minute of normal breathing and “DhA Point pulse-sensing”, call to mind “**name**” of **Virtue Code-13**, the “*Yhu-MEI-ZUN*” (“***Yoo-mE-ZUn***”), and the **Virtue Code-13 “Tone” “*ah*”**, and place hands in the “***Ether Mudra***” (rest backs of both palms on your knees and place ring and middle fingers together touching thumb, on each hand).
37. As the “1-full-minute of normal breathing” completes, **inhale** into the **DhA Point** and **hold**, then **slowly exhale, while speaking/toning** the **VC-13 NAME immediately followed by the TONE** as “**mantra**” of “***Yoo-mE-ZUn – ah***”, verbally **spoken/toned** from start to finish of the **exhale**.
38. Complete **11 more** “inhale into DhA Point”/Exhale-out Mantra breaths, then stop toning and **return to normal breathing** after completion of the last exhale. Still keep hands in the *Ether Mudra* position.

Condensing Breath

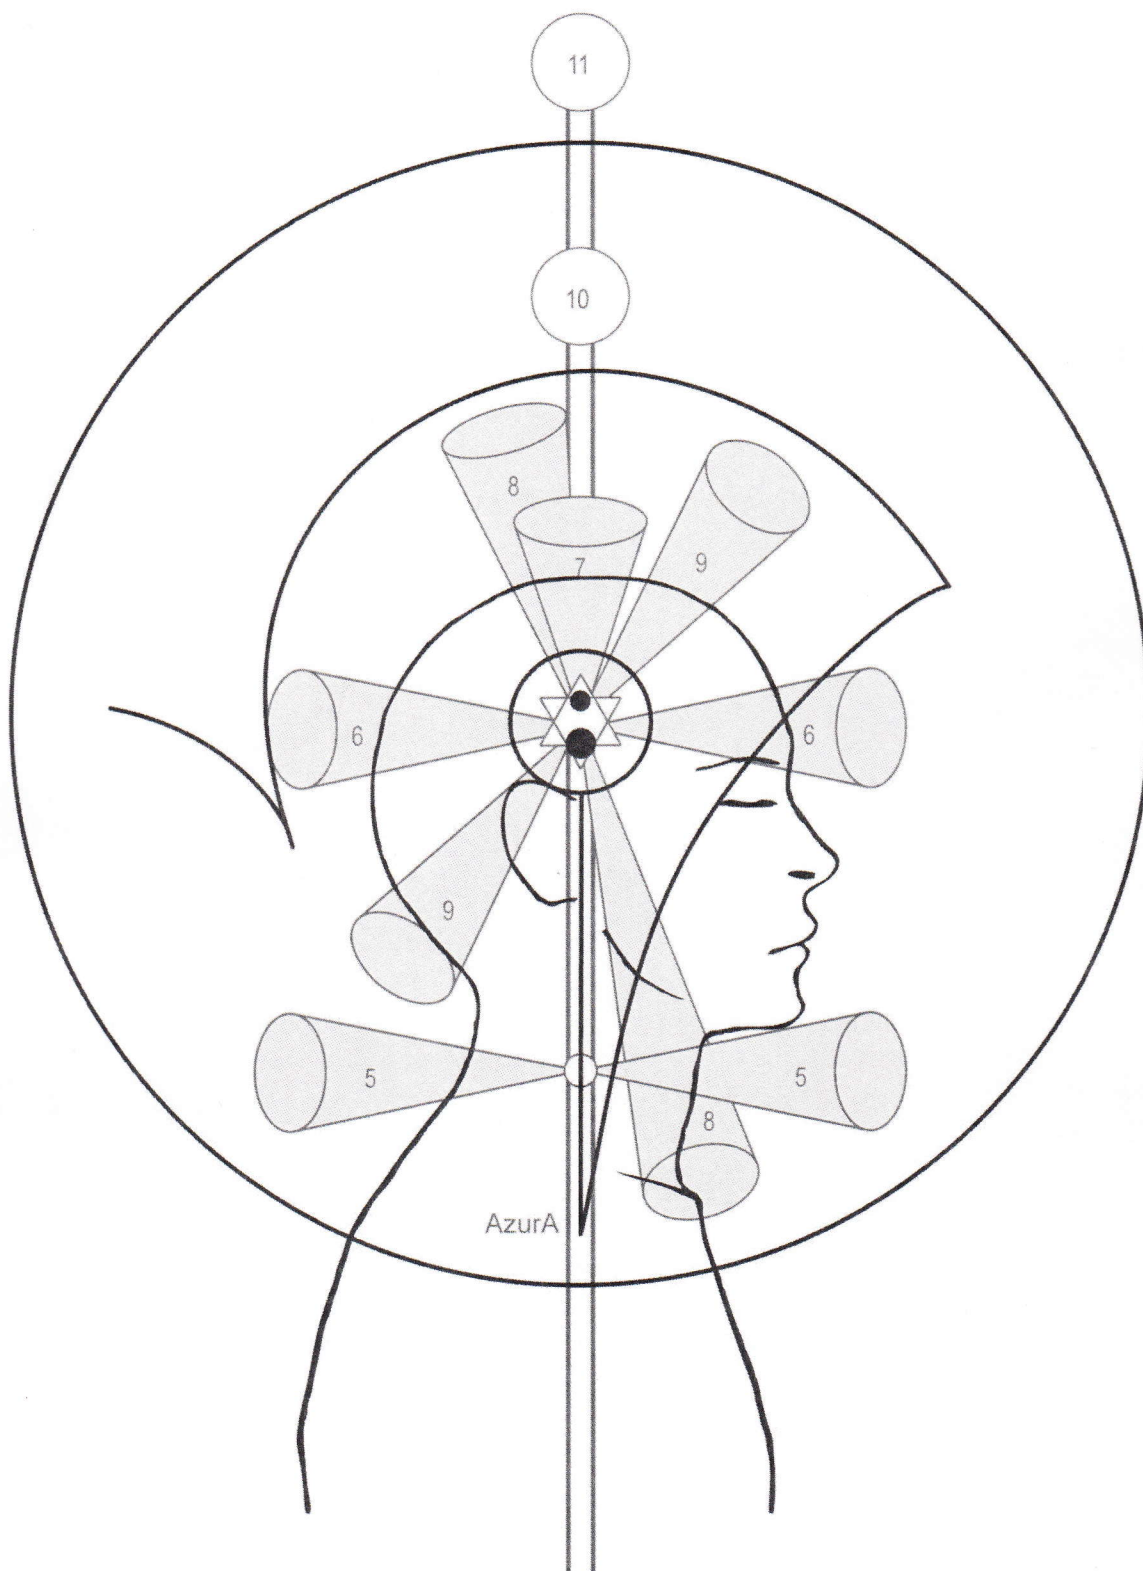

39. Next, **inhale slowly, deeply and strongly**, using the inhale to **contract** the Silver Mirror-ball Sphere into a **minute, shiny, pulsing “Silver Seed Orb” within the center of the DhA Point**; **hold** a moment at the top of the inhale and **FEEL the “pulse”** of the “Silver Seed Orb” begin to **accelerate and intensify**.
40. Now, **exhale slowly, deeply and strongly**, using the exhale breath to “**push**” the minute “**Silver Seed Orb**” from the DhA Point, **backward and downward**, into the “**Etheric Duct**” within the “**tip of the tail bone coccyx**”. Breathe normally for a moment.

Awakening the Flame of DhA- Silver Seed Activation-1

41. Inhale slowly, deeply and strongly into the center-point of the “Silver Seed Orb” in the “tailbone Etheric Duct”, and hold at the top of the inhale.
42. **Exhale slowly, deeply and strongly**, using the exhale breath to **push a “replica image” of the Silver Seed Orb downward, directly from the tailbone Etheric Duct and “straight downward”**, into the **Ah-SA-yas Orb Reservoir in Earth Core**. (**Do NOT** first bring the Silver Seed Orb “back into the CVC” within the body, before sending it downward.) Hold at bottom of the exhale for a moment, and observe that a

"glowing Silver-Stream Cord" emerges back upward from the *Ah-SA-yas Orb Reservoir* directly into the tailbone Etheric Duct and original Silver Seed Orb. Return to normal breathing.

43. You have now opened the **"3-point conduit-current of the DhA-TEi"** (two **"Panna-DhA-TEi"** currents, one running upward and downward **in each leg**, and one **"Prima-DhA-TEi"** current running upward and downward between the Silver Seed Orb in the tailbone Etheric Duct and the *Ah-SA-yas Orb Reservoir*. This **3-point DhA-TEi current** is collectively referred to as the **"Am-ma'-thrA DhA-Ya-TEi"**, or **"Mother-conduit-current"** through which the **DhA-Ya-TEi Force Flows** can later run, upon completion of **Level-1 DhA-Ya-fication** of the physical-atomic telluric-etheric body. Your *"Seat of Kha-Steil-A"/"DhA Point"* pre-ancient energy center has now been brought out of dormancy in preparation for Level-1 DhA-Ya-fication of the physical-atomic telluric-etheric body and "running the DhA-Ya-TEi Force Flows".

Technique-4: *"Prayer of the DhA-Ya-TEi; Declaration of the Ultimate Desire"*

PART-3 of "Releasing the Cloak of Aya from the Silver Seed Crystal"

Purpose: Tonal encryption of this "Declaration" initiates **PARTS-1 & 2 of "Releasing the Cloak of Aya from the Silver Seed Crystal"** (if PARTS-1&2 have not been done prior to this PART-3), and amplifies/intensifies the qualities of energy released in PARTS-1&2 if they HAVE been done individually prior to PART-3. The collective purpose of PARTS-1 through 5 of *"Releasing the Cloak of Aya from the Silver Seed Crystal"* (Sliders-10 Techniques-2,3,4,5A &5B) is to **progressively transmute and release the inorganic electromagnetic Cal-Force** (calorine joule-fragment) **membrane/ "Cal-cloak"** that surrounds the organic (and presently dormant) **Aya-Silver-Seed-Crystal** within the tailbone Etheric Duct of mortal human beings.

The **"Cal-Cloak" membrane** blocks off the **organic Ah-yah-YA'** ("Eternal Living Dream Stream") **Source-Force Flows** from entering the **Aya-Silver-Seed Crystal**, forcing the "Aya-Silver-Seed-Crystal" (THE **"SILVER SEED"**) into an **inorganic state of dormancy** within the "mutated and morti-fied" mortal physical-atomic body. The organic, LIVING Aya-Silver-Seed-Crystal is a **crystallized-standing-wave-radiation-quantum of eternally living Ah'-yah** (Eternal 1st Creation God-Source Field) **consciousness** that enters the physical embryonic body *after conception and before fetal integration*, which represents the personal "little piece of God alive within all living things". In organic **Angelic Human** bodies, the "Aya-Silver-Seed-Crystal" allows for **open circulation** of consciousness and **DhA-Ya-TEi Life Force** between the **Ah'-yah** (Eternal 1st Creation God-Source Field) and the **physical-atomic body** of "DhA-Ya-fied" biological incarnates; the Aya "Silver-Seed" crystal IS the **"core radiation structure"** by and through which the Angelic Human bio-physical body remains eternal and is capable of genuine Transfigurative Ascension.

In **"Morti-fied"** finite life/mortal **Human bodies**, the "Cal-Cloak" membrane prevents the Aya-Silver-Seed-Crystal from circulating **Eternal Ah-yah-YA' Life Source** and **DhA-Ya-TEi Elemental Life Force** currents through the bio-physical body structure, thus forcing the organic potentials of eternal life and organic ascension into dormancy within the mortal biology. The Cal-Cloak, or "Cloak of Aya" is the **core biological product** of the "finite artificial life **Metatronic/anti-Krystic 666-creation code**. Bio-spiritual Technologies utilized to "Release the Cloak of Aya" progressively work to transmute the inorganic Cal-Force membrane surrounding the Aya-Silver-Seed-Crystal, further preparing the bio-physical anatomy to "reawaken the Eternal Ah-yah-YA' Life Source and DhA-Ya-TEi Life Force Flows", progressively returning the Eternal Life potentialities of "DhA-Ya-fication", "DE-Morti-fication" and "Transfigurative Ascension" to the physically embodied human.

This **Sliders-10 Technique-4: "Prayer of the DhA-Ya-TEi; Declaration of the Ultimate Desire"**, **"PART-3 of Releasing the Cloak of Aya from the Silver Seed Crystal"**, can be used to initiate and amplify "PARTS-1&2", and can also be used at anytime thereafter to amplify and accelerate transmutation of the Cal-Cloak membrane (as well as for other purposes associated with "Elemental Command").

Preliminary Preparation: **Sliders-10, Technique-1: Virtue-13 and Awakening the Seat of Kha-Steil-A/"DhA Point"** and Luminary Body Activation (Sliders-9 10/2010 & FOL 1/2011), Chakra Induction of the 13 Virtue Codes and related bio-field activations (April 2011 workshop).

Immediate Preparation: Rest backs of palms on your knees and place both hands in the **"Ether Mudra"** position (ring and middle fingers together touching thumb), and breathing normally, speak the "Sacred Language" words of the "Prayer". (later "toning melodies" will be provided).

Physical Gestation Cycle - The Tauren Cycle Light Body & Rasha Body Gestation Cycles Begin.

Axis 1 to Axis 2

(120 Days = 4 Mos - 16 WKS)

The “**organic**” Fetal Integration Process begins 120 days after fertilization and **continues until the 1st birthday.**

In contemporary times, Fetal Integration begins early; the Spirit usually "tethers" the body between month 1 & 2, **33-56 Days** after fertilization, with release of the ZhEon birth quantum from the Spirit Body into the Light Body Seed Atom.

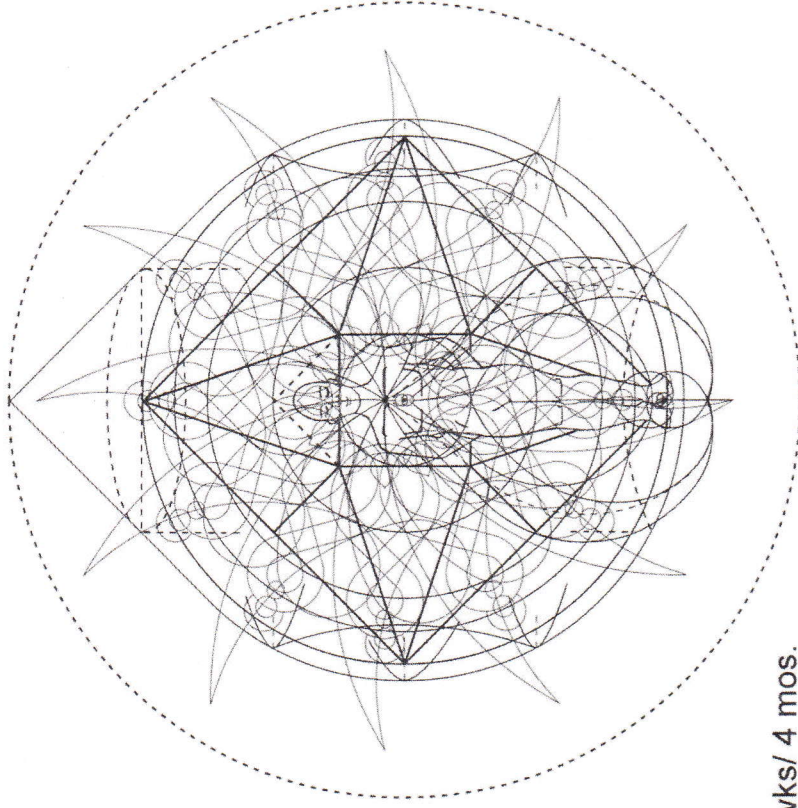

Some Spirits wait up to **3 Days** after **the birth of the physical body** to engage Fetal Integration, after which point the fetal parental donated energy quantum reaches **critical depletion** and can no longer sustain cellular process.

ZhEon – The Birth Quantum

*The Krystar Crystal Ascension Capsule
of the RashaLAe Body*

The “ZhEon” is a quantum-spark of conscious EirA Spirit Body energy entered into the Light Body Seed Atom during the Fetal Integration Process, after conception (33-56 days) but before birth of the physical atomic body.

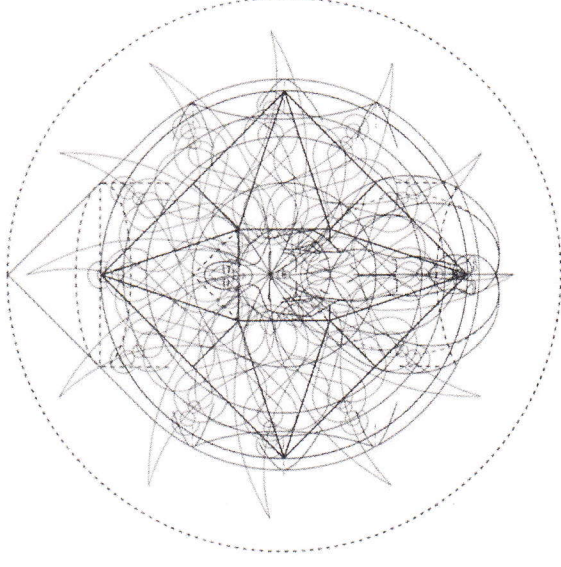

Note: Original Angelic Krystic Fetal Integration usually occurred at 120 days/ 16 wks/ 4 mos. Contemporary Humans start early at 33-56 days between 4-8 wks/ 1-2 mos.

The ZhEon connects the eternal Spirit Body and Rasha Body, and the finite Light Body to the atomic body through an etheric duct, the AzurA, within the base of the Thymus Gland.

Fetal Integration Point

The Krystar Crystal Ascension Capsule
of the RashaLae Body

The point at which the ZhEon enters is called the Fetal Integration Point which is the point of “incarnational commitment.”

The ZhEon draws the incoming “individuated spirit identity,” called the GharE’, outward from the Spirit Body (which develops from the point of conception, but is not yet “tethered” to the fertilized egg) and into the Light Body (which progressively “grows” following birth of the Spirit Body ElumEir-adhona.)

From the Fetal Integration Point forward until either ascension or Bhardoah “death transition” of the physical body occurs, **the ZhEon “tethers” the GharE’ to the physical body.**

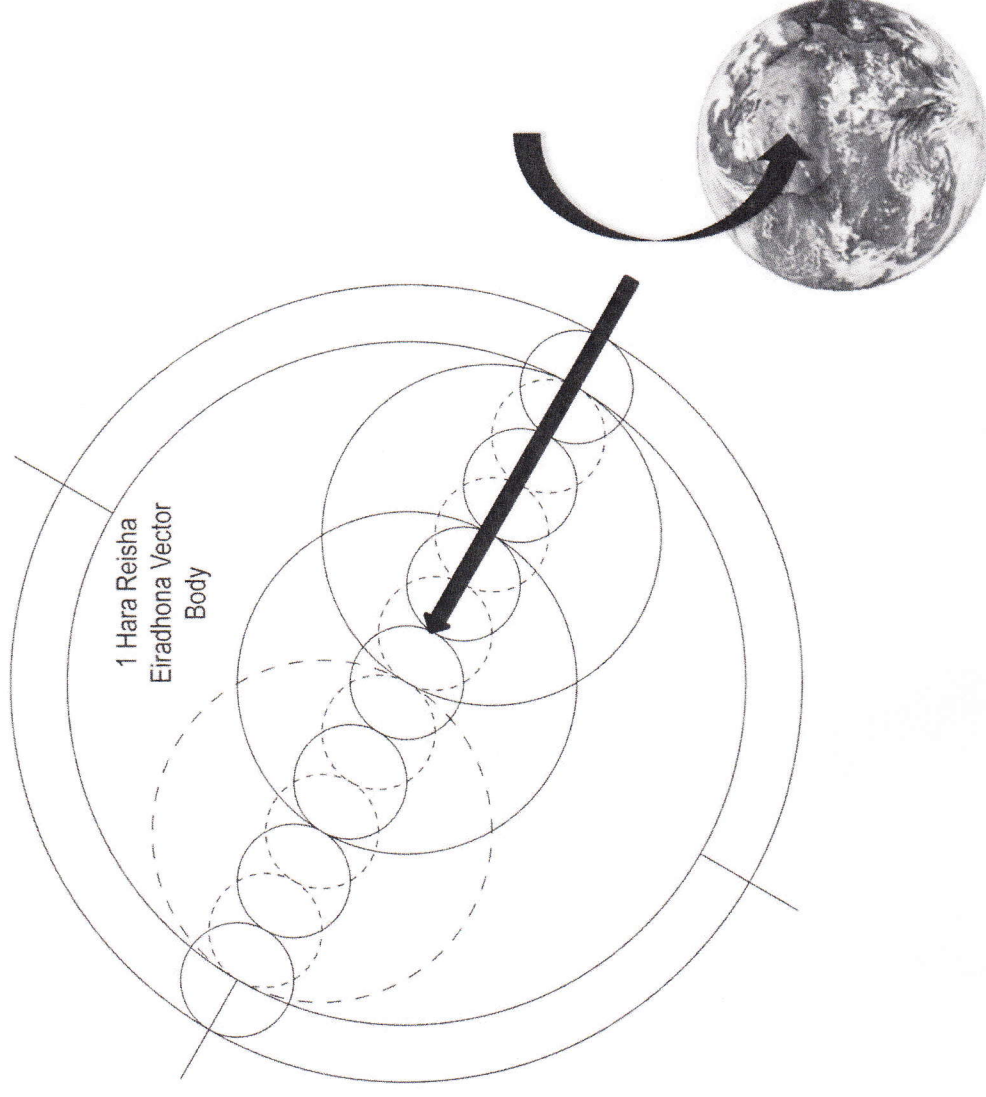

The Core Quantum of the GharE’ remains in the dimensionalized Light Body structure as a pattern of infrasound radiation geleziac-ether, that IS the conscious identity of the incarnate, which is “held embodied” through the “tether point” of the ZhEon.

Space-Time Phase Lock

Once “tethered,” the GharE’ conscious identity is **biochemically and genetically phase-locked** into the mortal body atomic structure and its inherent space-time birth coordinates.

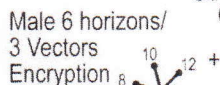

If the GharE’ is to retain the eternal-life potential of its original spirit form, it must either **Transfigure the atomic body** in ascension, OR

Make its way safely back to the Spirit Body then “recall” the **physical atomic and Light Body quantum back into the Spirit Body** through genuine Bhardoah Transition.

Beginnings of Organ Systems

Following implantation, the inner cell mass of the blastocyst begins to differentiate into the 3 **primary germ layers**: ectoderm, endoderm, and mesoderm. They are the embryonic tissues from which all tissues and organs of the body will develop. The various movements of cell groups leading to the establishment of the primary germ layers are referred to as **gastrulation**.

About the **fourteenth day**, the cells of the embryonic disc differentiate into three distinct layers: the upper ectoderm, the middle mesoderm, and the lower endoderm.

8th to 14th Day Blastocyst Differentiates into Germ Layers.

The "666 Mutation" that initiated via the male sperm at Conception Begins Activation on the "6th Day," preventing organic formation & activation of the Aya Silver Seed Crystal in Tailbone.

⑤ **Pregnancy.** The development of the human embryo. Division of fertilized egg, or ovum, begins within hours of conception. Within a week a ball of cells—a blastocyst—has developed. After the third week, the embryo has changed from a mass of cells into a recognizable shape. At four weeks, the embryo is 3mm/0.1 in long, with a large bulge for the heart and small pits for the ears. At six weeks, the embryo is 1.5cm/0.6 in with a pulsating heart and ear flaps. At the 8th week, the embryo is 2.5cm/1 in long and recognizably human, with eye-lids, small fingers, and toes. From the end of that second month, the embryo is almost fully formed and further development is mainly by growth. After this stage, the embryo is a termed a fetus.

The Heart of the Mutation, the “6th Day” and DhA-Ya-fication

The “heart of the biological 666-Mutation” is a minute quantum of radiation held at the core of the ***Va-Ba-Tum Carbon Crystal***, at the center of the ***“DhA Cell”***. This minute quantum of radiation held at the core of the *Va-Ba-Tum Carbon Crystal* is called the ***“EhY”***, which is a small portion of the organic Aya Silver Seed Crystal God-Source radiation that was “inorganically harnessed” as the ***catalyst for materialization of the biological 666-Mutation***. The ***DhA Cell*** is an organic D-1 Etheric/D-2Telluric blended-cell in the ***tailbone Etheric Duct***; it is also known as the ***“6th-Day Cell”***, as it organically forms on the 6th Day following physical conception. In organic Angelic Human gestation, the *DhA Cell* would normally “anchor and activate” the ***Aya Silver Seed Crystal*** at its core, and open the organic ***6-Point Path of Ah-yah-YA’*** Dream Stream flows into the growing “***blastocyst*”** cell-cluster. Due to the ***“Chi/Ghi-ring” genetic mutation*** carried within the core energy structures of contemporary human and animal sperm, a quantum deficit is created within the fertilized egg, which by the “6th day” of gestation, is sufficient to prevent the process of ***“Silver Seed Crystal” activation*** from occurring in organic fashion. On the 6th day, due to this quantum deficit, a small portion of the organic Silver Seed Crystal Aya Spark becomes drawn into polarity reversal and harnessed within the center of the DhA Cell. This “inorganically harnessed quantum of God-Source radiation” is referred to as the ***“EhY”***.

The reverse-spin of the ***“EhY” radiation-fragment*** generates an inorganic electromagnetic barrier around the “Aya” spark within the Silver Seed Crystal of the DhA Cell; this inorganic EM-harness is called the ***“Cloak of Aya”***. The ***“Cloak of Aya”*** prevents the organic processes inherent to opening of the ***6-Point Path of Ah-yah-YA’*** (Dream Stream flows), within the Silver Seed Crystal, DhA Cell and “blastocyst”. The “spin of the EhY” begins to draw into the DhA Cell and growing blastocyst cell-cluster quanta of encryption-distorted ***“recycled energy/consciousness fragments”*** from the local *DhA-TEi Density-Elemental-Base Force*, accreting around the EhY an inorganic field of encryption-distorted ***“Elemental Identity fragments”***, which solidify via unnatural spasmodic contraction of the DhA Cell, into the ***Va-Ba-Tum Carbon-Crystal*** encasing the EhY within the center of the DhA Cell. All cells that emerge within the growing cell-cluster following the ***“6th Day Point of capture of the EhY”***, will progressively carry the encryption-distortions held within the “recycled energies” of the *Va-Ba-Tum Carbon-Crystal*, AND will progressively carry the “666-Mutation” as it progressively unfolds within the biology through the “catalyst of the EhY”.

Due to the “Capture of the EhY quantum”, the organic process of Krystic ***“Fetal Integration”*** is disrupted; organically, Fetal Integration would occur at about ***120 days*** after the *Conception Point*, but due to the unnatural cellular-acceleration caused by the “spin of the EhY within the *Va-Ba-Tum Carbon-Crystal*”, Fetal Integration (if it is to occur to continue the incarnation) usually takes place within ***33-56 days*** after conception. At the “Point of Fetal Integration”, when the organic Spirit Body and incarnating identity “tether” the physical body by sending in the ***ZhEon Birth Quantum***, a portion of the ZhEon quantum and thus a portion of the “consciousness stream” of the incarnating spirit identity become ***harnessed and ensnared*** by the inorganic EM-fields generated by the EhY in the DhA Cell. A portion of the incoming spirit becomes trapped in a ***static harness*** around the *Va-Ba-Tum Carbon-Crystal* in the DhA Cell. This “trapped” portion of original incarnating spirit identity, (which normally would not become trapped and would “anchor” into and blend with the Aya God-Source Identity of the Silver Seed Crystal), is often referred to as the ***“TE” (DA)***, which is often viewed as ***“the piece of God within all living things”***. If it were not for the 666-Mutation, the “TE” portion of *individuated spirit identity* would become an organic part of the greater embodied *“Aya-God-Source Eternal Identity”*.

At about **100 days** after conception, the **666-Mutation** “moves into full swing” within the fetus; at this point, the Va-Ba-Tum Carbon-Crystal in the DhA Cell has accreted sufficient quantum of “recycled energy” to initiate Elemental-Fragment-current circulation throughout the physical and Light Body structures of the fetus circulation; these harnessed fragment-currents from within the local Density-Elemental-Base Field are drawn into the EhY-core of the Va-Ba-Tum Carbon Crystal and are inorganically polarized and set into Tube-Torus vortex-spin within the DhA Cell, forming **two inorganic “equal-quantum and opposite-polarity” Elemental-Force currents** that are known as the “**Yin and Yang Forces**”, which are inherent to “*Atlantean Death-star Wormhole Merkaba Mechanics*”. The movement of the “Yin-Yang Force” draws in yet more quantum from the fetal-integrating **organic spirit identity**, unnaturally blending its consciousness with the flows of “recycled” encryption-distorted Elemental Fragment currents, further polarizing this energy, consciousness and identity; through this process, **a portion of the consciousness and energy of the incoming spirit are entrapped within “artificial bondage”**, part becoming the coherent and organic (but isolated) “**Chi Force**” Identity, the other portion becoming the “**equal and opposite**” incoherent and unnaturally elementally-bonded “**Ghi Force**” Identity.

Both “**Chi and Ghi**” aspects of the harnessed portion of the original spirit identity are drawn from the organic portions of the spirit identity that *normally* would have become the **organic GHARE**. The organic GharE Identity is the portion of incoming spirit consciousness that **engages atomic-bonding** with the organic *DhA-TEi Density-Elemental-Force*, to become the “living conscious spirit” of the atoms, molecules and cells that “make up the living “**Body Consciousness**”. Organically, the **GharE Identity would blend with the Aya Identity** through the *Silver Seed Crystal* of the DhA Cell to become the “**Living DhA-Ya-TEi**” (“**embodied God-Source**”) Identity. But due to the biological mechanics of the “666-Mutation”, the GharE atom-bonded personal spirit force becomes “reduced and polarized”, the “Chi-portion” remaining as a reduced-quantum GharE force, and the “Ghi-portion” reversing encryption to become the “chaotic” **Gharoche force**. Both the “Chi and Ghi” “rule the personal physical-atomic Body Consciousness” via the autonomic body systems and elemental bio-chemical interactions.

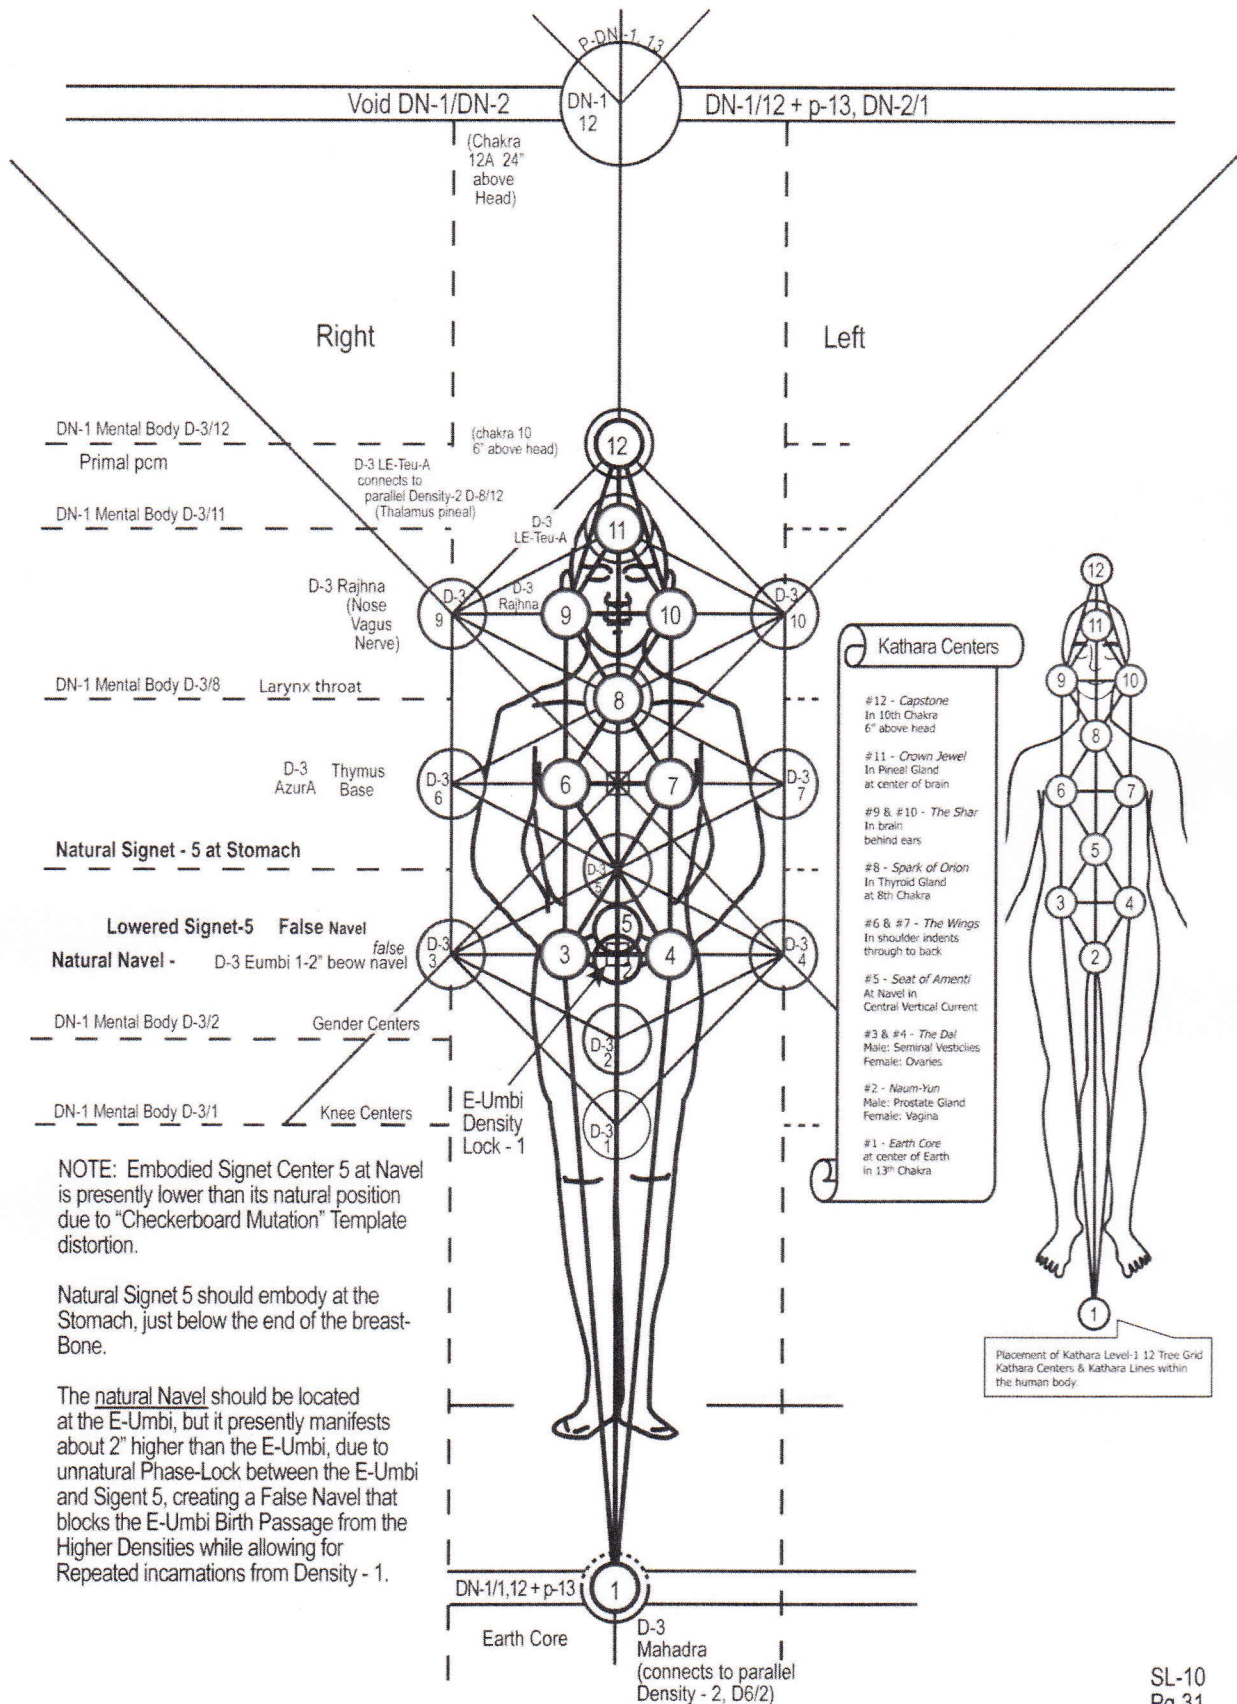

In organic Angelic Human creation, the organic GharE atom-bonded spirit identity would blend with the Aya “God-Source” identity via the Silver Seed Crystal, and the resulting embodied “DhA-Ya-fied Identity” would retain **FULL CONSCIOUS AWARENESS**, with God-Source, its own “Body Consciousness” and “all of Eternal Creation”. There would BE NO “SUBCONSCIOUS MIND”, NO “Negative EGO Mind”, and NO “Body Mind running rampant at war with itself and with a seeming life of its own”. ALL of these characteristics of the contemporary human biology and psyche are inorganic products of the horrid affects of the “666-Mutation”.

Fortunately, this biological mutation **can be methodically and progressively over time “reverse mutated”**. Such “reverse-mutation of the 666” involves “**healing of the 6th Day Curse**”.

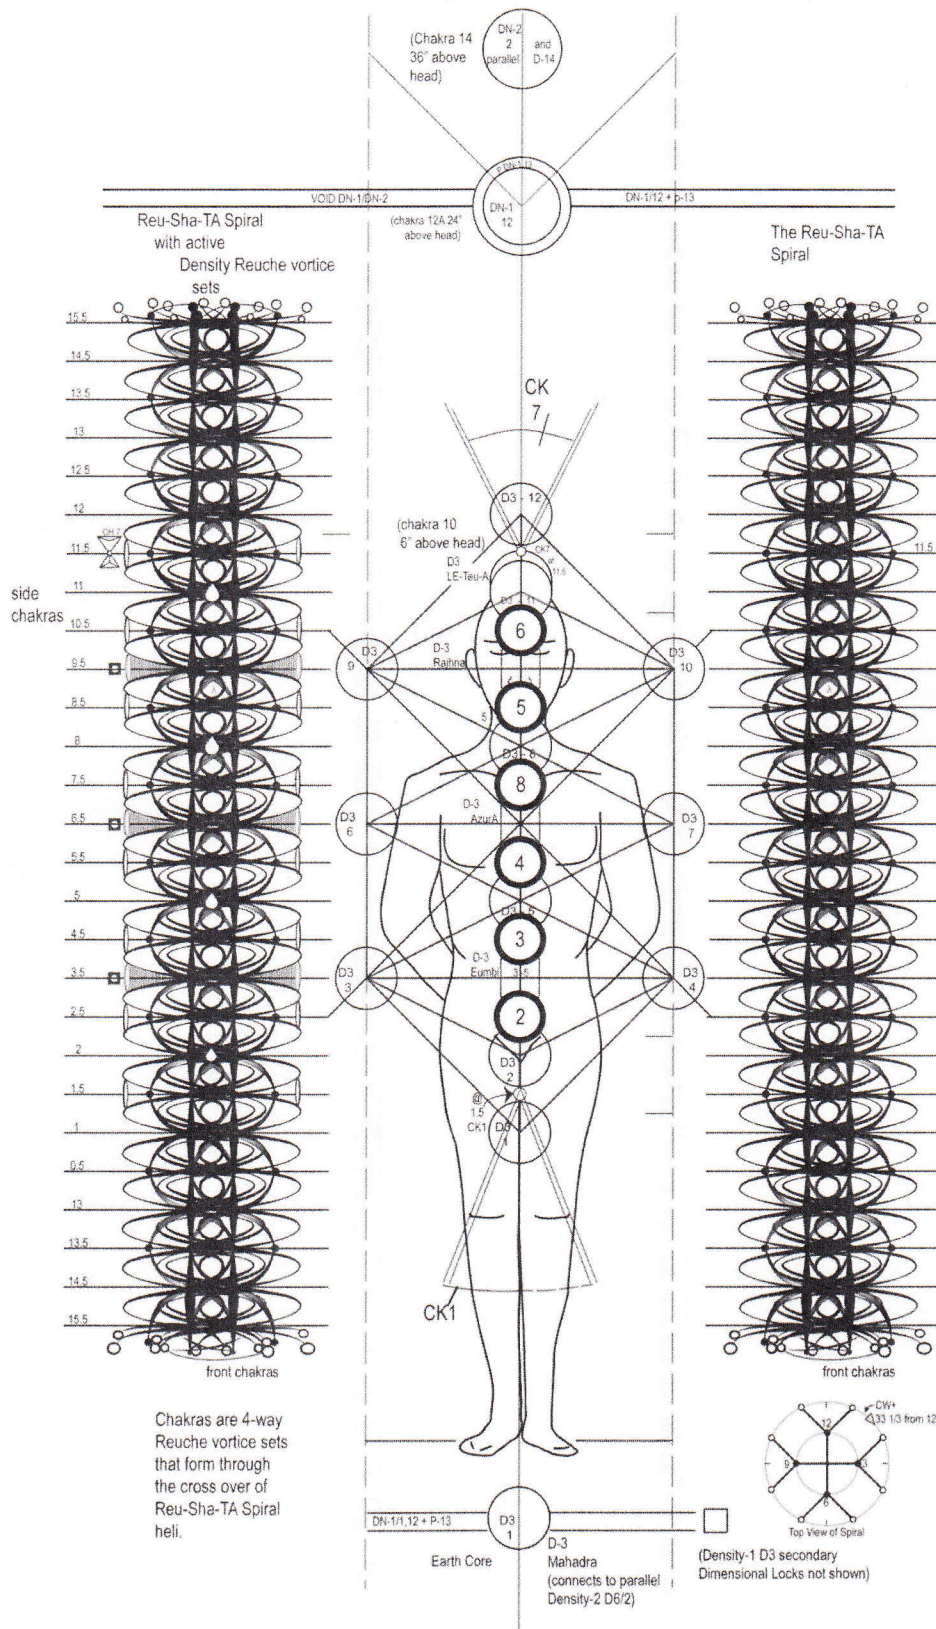

If the “**Heart of the Mutation**”, the entrapped “**EhY**” quantum harnessed at the center of the *Va-Ba-tum Carbon-Crystal* in the tailbone *DhA Cell*, can be **released and reunited with the Aya God-Source Identity** within the *Silver Seed Crystal* of the DhA Cell, THEN the organic **6-Point Path of Ah-yah-YA’ Dream Stream** flows of the DhA Cell (which did not open into the embryo on Creation-Day-6) can finally be opened. Opening of the **6-Point Path of Ah-yah-YA’** within the DhA Cell, will (in specific stages) progressively “**Release the personal “TE” identity** (trapped around the Va-Ba-Tum Carbon-Crystal of the DhA Cell), **allowing it to reunite with its organic Aya Silver Seed Crystal “God-Source identity”** to initiate “**DhA-Ya-fication**” of the physical-atomic body and consciousness. (Technique-7A). Following “*Reclamation of the Ehy and freeing the “TE”*”, the “**Chi and Ghi**” aspects of the atom-bonded-spirit GharE and Gharoche can then be released from the inorganic “**Gravitron Tube-Torus**” vortex-circulation of the

"Yin-Yang Force Flows". Releasing the "Gravitron-vortex Yin-Yang Force Flows" will progressively allow the healed GharE Force to "blend with the conscious-ego-identity and the Aya Identity of the Silver Seed Crystal in the DhA Cell, reawakening the organic Eternal Life **"DhA-Ya-TEi Force Flows"** and their **"Yan-Yun-A" "Sacred Butterfly" circulation**. THIS process IS **"DhA-Ya-fication"** of the physical-atomic body and of the incarnate consciousness that resides within it.

The activations featured in this **Sliders-10 workshop** are specifically focused upon creating **Level-1 DhA-Ya-fication**; Level-1 sets this process in motion within the D-3 "atmic-Mental Body", and within the D-7-etheric, D-11-telluric and D-13-etheric aspects of the multi-dimensional anatomy. The **remaining 4-Levels of DhA-Ya-fication** will be sequentially featured in MCEO Sliders workshops between August 2011-August-2012.

Seals of Kha-Steil-A: 7 Elemental Seals of DhA-TEi & the DhA-ya-TEi Force Flows

SI-10
Pg 35

Technique-6A: The 7 Seals of Kha-Steil-A; initiating the DhA-Ya-TEi Flows

Purpose: Opening the embodied **7 Elemental Seals of DhA-TEi** to initiate embodied flows of the **DhA-TEi Trans-harmonic Hydro-acoustic Base-Elemental Force** within the physical body, in preparation for *Level-1 DhA-Ya-fication* of the physical-atomic body (Sliders-10 Techniques 6B, 7-A&B, and 8.)

The 7 Elemental DhA-Ya-TEi Seals are located in the following energy centers:

SEAL-1: Aya Silver Seed center, **SEAL-2:** EUmbi, **SEAL-3:** DhA Point, **SEAL-4:** Ra Center core, **SEAL-5:** Karanadis Seal rear, **SEAL-6:** AzurA rear and **SEAL-7:** Pineal Gland rear.

Preliminary Preparation: Sliders-10 Techniques 1, 4 & 5A-B, Luminary Body Activation (Sliders-9 10/2010 & FOL 1/2011), and Chakra Induction of the 13 Virtue Codes and related bio-field activations (April 2011 workshop).

Immediate Preparation: While breathing normally, visually focus upon the embodied **DhA Point** (middle point between navel and EUmbi), rest backs of palms on your knees and place both hands in the “**Ether Mudra**” position (ring and middle fingers together touching thumb), and mentally “sense the presence” of each of the embodied energy “stations” featured on the **DhA-Ya-TEi Force Core Flow Sequence Chart**.

Procedure: Inhale 1st **DhA-TEi** currents from **DhA Point**, hold and contract abdominal muscles, then exhale & release muscles, using **exhale to draw current to next station**; inhale & hold at “next station”, then exhale, using **exhale to draw current to next station** in sequence. Continue this “inhale/stop/hold-exhale/move current” throughout completion of the first Sequence, and in any further Sequence repetitions.

Technique-6B:

Igniting the Kha-Steil-A DhA-Ya-TEi Flame within the Aya Silver Seed Crystal.

Purpose: During this *Technique-6B*, *Trans-harmonic Hydro-acoustic* **DhA-TEi Base-Elemental Force** currents within the **Aya Silver Seed Crystal** receive a “**Spark of Aya**”, which **initiates blending** of the Aya God-Source Force with the *DhA-TEi Density-Elemental-Base Force* within the **Aya Silver Seed Crystal** (tailbone Etheric Duct). This “blending of eternal and density Forces” creates within the *Silver Seed Crystal* the “**Living Flame of Kha-Steil-A**”. The *Flame of Kha-Steil-A* is a **standing-wave** of eternal living **DhA-Ya-TEi radiation** (God-Source Aya Force blended with *DhA-TEi Density-Elemental-Base Force*), activation of which allows for “**opening of the blended DhA-Ya-TEi Force Flows**” **within the Silver Seed Crystal** and **within the DhA Point** of the physical-atomic body, in preparation for *Level-1 “DhA-Ya-fication”* of the physical-atomic body.

Note: When the *Aya God-Source Force Flows* are opened, activated and blended with the *DhA-TEi Density-Elemental-Base Force Flows* within a physical-atomic biological form, the *DhA-TEi Elemental Base-Force* of the *Density Planes* can begin to progressively **transmute, transfigure, release distortions and transmigrate** into the **Eternal Life DhA-Ya-TEi planes**. Activation of the “*Flame of Kha-Steil-A*” within the *Aya Silver Seed Crystal* opens the blended *DhA-Ya-TEi Force Flows* “**within the Silver Seed Crystal** and **within the DhA Point**, **enabling the DhA Point and the Silver Seed Crystal to progressively energize, until they build sufficient quantum of DhA-Ya-TEi Force to** (Techniques-7A & 7B) **over-ride, “clarify” and release the biological core of the “666-Yin-Yang Metatronic Mutation”** (through which the “TE” and “Chi Force” will be freed to return to organic eternal-life order).

Preliminary Preparation: **Sliders-10 Techniques 1, 4, 5A-B, 6A**, Luminary Body Activation (Sliders-9 10/2010 & FOL 1/2011), and Chakra Induction of the 13 Virtue Codes and related bio-field activations (April 2011 workshop).

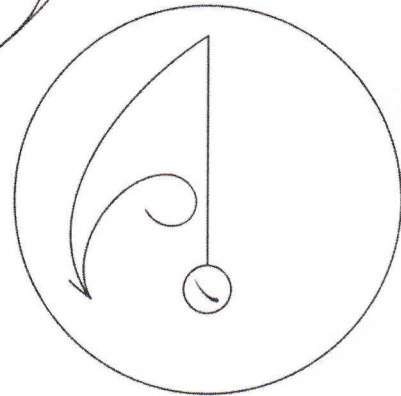

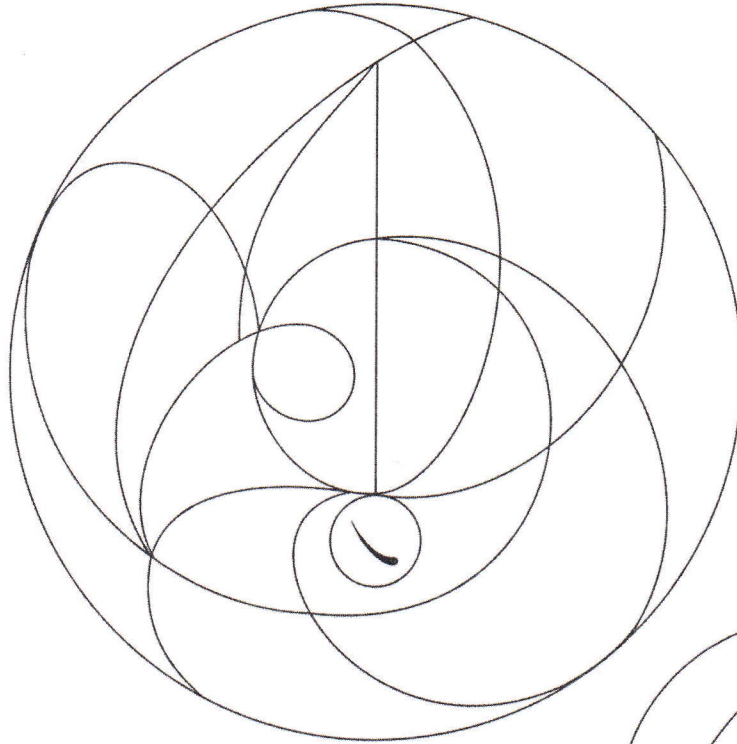

Immediate Preparation: *Optical-Pineal Induction* of “**Air Command**” **Color Virtue Codes 3, 7 & 11**, followed by *Chakra-Palm-Induction* of the corresponding Virtue Codes into **Chakra-3, 7 & 11**. While breathing normally, visually focus upon the embodied **DhA Point** (middle point between navel and EUmbi), rest backs of palms on your knees and place both hands in the “**Ether Mudra**” position (ring and middle fingers together touching thumb), and mentally “sense the presence” of each of the embodied energy “stations” featured on the **DhA-Ya-TEi Force Core Flow Sequence Chart**.

Procedure: Once Virtue Code Induction has been completed, **inhale** 1st **DhA-TEi** currents from **DhA Point**, **hold** and **contract abdominal muscles**, then **exhale & release muscles**, using **exhale to draw current to next station**; **inhale & hold at “next station”**, then **exhale**, using **exhale to draw current to next station** in sequence. Continue this “**inhale/stop/hold-exhale/move current**” throughout completion of the first Sequence. When 1st Sequence run is complete, **inhale**, and **contract abdominal muscles**, using the inhale breath to **draw the 3 Virtue Codes** from their corresponding Chakras and into the **center of the DhA Point** (between EUmbi and navel), **hold** at top of inhale and condense Codes into a spark at the DhA Point center. Next, **exhale and release muscle contraction**, using the exhale breath to push the “Code Spark” downward and backward into the *Silver Seed Crystal* in the tailbone Etheric Duct. Breathe normally and sense the *Living “Flame of Kha-Steil-A”* ignite within your *Silver Seed*, and the **DhA-Ya-TEi Force Flows** open within your **Silver Seed Crystal** and **DhA Point**.

The 13 Disciplines and 5 Command Postures of Krystic Elemental Command:

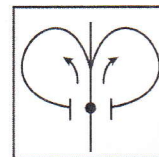

Intro to "The Disciplines"-Moving Meditations

The "Disciplines" are specific, slowly rendered energy movements by which the *Dha-Ya-TEi Elemental Source Flows* are moved and directed through the physical-mental-spiritual body system via combined physical, mental and "e-motional" action. There are **12 Primary Disciplines** (movements), which are divided into **4 sets** of 3 Primary Disciplines. Each "Discipline Set" is referred to as the "**Posture of the Command**" to which it is associated; each of the 4 "Command Postures" embody 3 Disciplines/energy movements, which together serve to strengthen, accelerate, circulate and "keep biologically viable" the specific core aspects of the ***DhA-TEi Trans-harmonic Hydro-acoustic Base-Elemental Force Flows*** associated with the corresponding "Elemental Command". The "13th Discipline", known as the "Eternal Discipline", is a flowing combination of all of the 12 Primary Disciplines rendered in specific sequence; the "Command Posture" of the Ether Command IS this "Eternal 13th Discipline".

Air Command Posture: The Sacred Butterfly

The 3 Disciplines of Yha-Seph-ah Air Command form the "**Air Command Core Posture**" called the ***DhA-YA-TEi***, also known as the "**Sacred Butterfly**". In relation to energy mastery within physical-atomic-matter systems, the "Sacred Butterfly/ DhA-Ya-TEi" Command Posture represents the "Core Posture" and energy circulation/movements upon which the other 3 Postures and the Eternal Discipline ride.

Sliders-10: May 2011 *DhA-Ya-fication Level-1*

Technique-7A:

“Return of the Aya”; Freeing the “TE” and Reclaiming the “EhY”

Purpose: Once the *DhA Point* and the *Silver Seed Crystal* have **build sufficient quantum** of blended *DhA-Ya-TEi Force*, (following Technique-6B “*Flame of Kha-Steil-A*” activation *within the Silver Seed Crystal* and opening the *DhA-Ya-TEi Force Flows* within the *Silver Seed Crystal* and the *DhA Point*), **their combined DhA-Ya-TEi Force** can be utilized to *over-ride*, “clarify” and *release the biological core of the “666-Yin-Yang Metatronic Mutation* and set the harnessed “TE” and “Chi Force” free to return to organic eternal-life order. To engage **Level-1 “clarification”** of the *biological “666-Mutation”*, the *DhA-Ya-TEi Force* quantum of both the *DhA Point* and the *Silver Seed Crystal* is combined within the **E-Umbi** and drawn into the **Dan Tein** center.

At the *Dan Tein*, the *DhA-Ya-TEi Force* quantum is further built and strengthened through specific breathing and muscle contraction; at a point of “critical mass energy building”, the *DhA-Ya-TEi Force* quantum becomes stronger than the quantum of the core “**Chi and Ghi Force**” energies held within the *Dan Tein*, and the *DhA-Ya-TEi Force* then **over-rides** the reversed-Chi core quantum of the “**Ghi**”, and draws the “Ghi-core reverse encryption” back into organic (though incomplete) order; this allows for the “Ghi” core-quantum to be “clarified” and organically re-blended with the *DhA-Ya-TEi Force*. Upon reclamation of the “Ghi” core-quantum, the organic (but unnaturally isolated) “Chi” core-quantum then re-integrates with its reclaimed “Ghi” and also blends quantum with the *DhA-Ya-TEi Force*. The **combined quantum** of the original *DhA-Ya-TEi*, and the reclaimed Chi and Ghi core-quantum extends beyond the energy holding capacity of the **inorganic electro-magnetic harness** that surrounds the *Dan Tein* and holds it captive.

When this “critical quantum” is reached within the *Dan Tein*, the (Level-1) unnatural electro-magnetic harness “**electronically crashes**”, freeing the *Dan Tein* center to (Level-1) reintegrate with the organic *DhA Point* to which the *Dan Tein* organically belongs. At this point in the *Level-1 DhA-Ya-fication Process*, the **Level-1 aspects of the DhA Point and Dan Tein merge** into a **large spherical reservoir** of organic Level-1 *DhA-Ya-TEi Force*, centered at the *DhA Point* station. The “**DhA Point**” becomes the embodied **Level-1 “DhA-Ya-TEi”** station of organic Krystic bio-spiritual Life-Force and consciousness.

Following Level-1 “clarification” of the *Dan Tein* and Chi-Ghi core-quantum, the “**heart of the biological 666-Mutation**”, the **EhY**, can then be easily addressed. The **EhY is released**, allowing both the **organic quantum of the EhY and the “TE” to be released and reintegrated** with the **organic Aya Identity of the Silver Seed Crystal**, and the **6-Point Pathway of Ah-Yah-YA opens** within the *Silver Seed Crystal*, preparing the body for (Technique-7B) “freeing the Chi and the GharE”, clearing the “Yin-Yang Gravitron Flow” and (Technique-8) restoring the organic Eternal Life Yan-Yun-A “Sacred Butterfly” *DhA-Ya-TEi Elemental Force Flows*.

Technique-7B:

“Return of the Yan-Yun-A; Freeing the “Chi” and Releasing the Core Yin-Yang Biological Distortion-Encryption”.

Purpose: Level-1 *DhA-Ya-fication*: “**Frees the Chi and the GharE**”, clears the Level-1 biological “Yin-Yang Gravitron Flow” **restores the organic Eternal Life Yan-Yun-A “Sacred Butterfly” DhA-Ya-TEi Elemental Force Flows within the Aya Silver Seed Crystal** at tailbone.

Technique-8:

Return of the Yha-Seph-ah Air Command: Sacred Butterfly Transfiguration-1 and the “Vow of the Ah-VA’ DhA-Ya-TEi”

(Ah-VA’ = Eternal, DhA-Ya-TEi = Embodied Mind-Spirit of God-Source)

Purpose: Yan-Yun-A “**Sacred Butterfly**” DhA-Ya-TEi Elemental Force Flows activate with the DhA-Ya-TEi Center, Silver-Seed-Crystal, and D-3- atmic, D-7-Etheric, D-11-Telluric aspects of multidimensional anatomy, **engaging Level-1 DhA-Ya-fication** of the physical-atomic body.

Technique Run as Live Transmission Activation; “**Vow of the Ah-VA’ DhA-Ya-TEi**” Tone Encryption keeps *Level-1 DhA-Ya-fication Process* in motion, and builds, amplifies and accelerates the “Sacred Butterfly” Force Flows. (Recommended use minimum 2-3 times per week until completion of *Level-2 DhA-Ya-fication*-August 2011.

Technique-8: "Vow of the Ah-VA' DhA-Ya-TEi"
